

Spare Parts NEXSTAR

For the last year or so Verlyn Grange has been collecting parts from crashed NEXSTAR airplanes. He finally revealed what he has been doing. Hidden away from prying eyes in a dark corner of his basement Verlyn morphed a pile used airplane parts into a beautiful NEXSTAR Biplane. We can't wait to see this beauty fly.

The plane was recently on display at the Boeing Museum of flight

Since his add for used parts has not been removed I suspect he has another variation in mind.

HEY VERLYN HOW ABOUT A SWEEP WING TWIN DUCTED FAN NEXSTAR.
