New Business:

- The Club had a meeting with the Civil Air Patrol (CAP) yesterday. We explained what our club was all about. The CAP had an hour-long question and answer session about our club. The audience was mostly 14 to 18 years of age. Brian was very impressed with their attitude and we're hoping some may want to fly with us.

We're asking for a trainers (airplanes) to be donated to the club to help build up our supply of trainers as we are expecting a lot of new members for 2011. If you have any airplanes, engines (.25 to .40 size) or transmitters (narrow band), covering material, please contact Brian Campbell. We could use these items for the flood of members coming in this spring. Only usable items please. We would like to give the airplanes to youth who have completed the Introductory Pilot Program and have become members of the club.

- Bud asked if all the thousands of hours we put in on the runway has been recorded by the Parks Department. Paul stated he had no luck reporting hours on previous work parties. Brian had no problem and was thanked for reporting hours for the runway project. Greg confirmed that the hours for the runway project have been recorded with the Parks Dept.
- Greg recommended we all turn in the hours individually to the Parks Department website as it is a more reliable way of recording them.

- Treasurer/Secretary: Greg Tinius and Jim Gilbert
- Safety Coordinator: Verlyn Grange volunteered and the club accepted.
